

Cooling of Poultry Houses

Bio Security

High Pressure Evaporative Cooling Systems run at 60 bar pressure. Brass anti drip nozzles are fitted on 15x1mm stainless steel tubes.

Systems vary from farm to farm. Apart from our standard range of Quiky-HU Misting Mortorpumps, we manufacture a range of specialised units to suit various applications.

The MaPa MSU is a simple solution to sanitizing. The MSU can be used to accurately dose detergents into the water stream providing a cost effective way of controlling chemical and water usage. The MSU is suitable for the sanitizing of walls, floors, process equipment and vehicles.

- Available in 220 or 380 volt
- Standard with 20m hose and spray lance
- Manufactured in aluminium and stainless steel
- Robust lockable On/Off switch
- 1.5m chemical suction hose with strainer
- Can be wall or table mounted
- Requires minimum 1.5 bar water feed pressure

Hygiene Brushware & Equipment

Top of the range HACCP approved (Hazard Analysis Critical Control Point) colour coded hygiene brushware.

Nylon bristle for thermal and mechanical strength
 Polyester bristle which exceeds nylon bristle performance for elasticity, water absorption, heat and chemical resistance.

PP fibre - soft - for low water absorption, high chemical resistance and lower heat resistance.

Food grade rubber squeegees with less than 1% water absorption.

Aluminium handles with robust connection to head with 65 Kg bending strength.

Available in five different bristle colours.
 Colour coded wall hanging brackets.

Cleaning Equipment

- High Pressure Cleaners
 - Stationary
 - Trolley Mounted
 - Wall Mounted
 - Trailer Mounted
- Pump/Motor Combinations
- Spare Parts
- Bare Pumps
- Accessories
- HP & LP Hoses

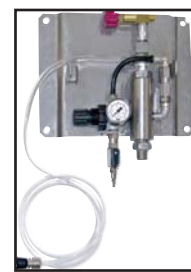

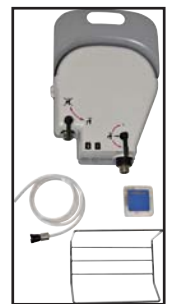

Single and multi point fixed installations for hot or cold water high pressure washing in hatcheries, broiler houses, abattoirs, dairies, workshops, etc.

Fixed Foaming & Washing Systems

- Fully stainless steel manual and retractable high and low pressure hose reels.
- Food grade hose.
- Stainless steel portable and wall mounted foamers and sanitizers.

- Stainless steel foam lances
- Stainless steel quick release couplers & nipples
- Stainless steel rubber protected ball valves
- RB65 low pressure wash down guns
