

# HOME RANGE

by IPC Soteco

## The Standard Machines:

These machines are small, quiet, light and have an impact resistant polyethylene tank.

A powerful professional vacuum motor offers years of trouble free use in the home environment. Versions with stainless steel tanks are also available.

## The Centralized Machines:

Suited to any home these units can be installed into existing dwellings and are available with all the necessary kit for you to do your own thing.

Small under counter units for flats and larger wall mounted units which can be installed in the laundry or garage of bigger homes are available.

Suitable for people that suffer from air born allergies this concept can keep a healthy pollutant free environment in the home.

The MaPa range of Wet and Dry Vacuum Cleaners:

MaPa Cleaning Technologies stock an extensive range of quality vacuuming cleaning equipment manufactured in Europe, all of which carry a CE Standard of Conformity Certificate.

These machines are built to perform a wide range of cleaning tasks, from use in the home as well as in commercial and industrial environments.

It is important to select the correct machine for your application.

MaPa have 3 ranges:

HOME

PROFESSIONAL

INDUSTRIAL

Complete cleaning equipment solutions.....

*and one company that brings it all together!*

## Base Upright

A multifunction upright vacuum cleaner suitable for daily maintenance of carpeted areas.

The machine comes standard with a 4 level filter system which includes a highly efficient paper dust bag.

The base can also be used for vacuuming curtains, blinds, car interiors and so on.

- ABS polypropylene vacuum cleaner
- Functional design
- Multi-level filtering system
- Dust kit: lance, brush, nozzle, 2 rigid extensions
- The optional power head dramatically speeds up and improves cleaning

***Optional Accessories Available***

## MaPa 202

- Professional polypropylene vacuum cleaner
- Robust 1300W insulated thru flow single stage dry motor
- Shockproof plastic tank and head
- Washable 24 micron polyester filter

A quiet, powerful and robust vacuum cleaner suitable for dry applications in the cleaning of hard floors, carpets and upholstery.

Small, lightweight and tough, the 202 is ideal for offices, retirement villages, homes and contract cleaners.

This popular contractors vac has a durable washable polyester filter and can be used without paper filter bags and is therefore economic to use.

***Accessories supplied with Vacuum***

## Eco Vac

- Professional polypropylene vacuum cleaner
- 1000w insulated thru flow double stage motor
- Thermal overload protection for motor
- Shockproof plastic tank and head
- Washable 24 micron polyester filter
- 0,3 micron hepa filter
- Paper bag filter
- Silent running

A quiet, powerful and robust vacuum cleaner, suitable for dry applications in the cleaning of hard floors, carpets and upholstery.

Ideal for offices, hospitals, retirement villages and home, where noise and dust suppression is a necessity.

The Eco Vac has a triple filtration system which includes a hepa filter. This filter will trap up to 99.9% of particulates of 0.3 microns. Therefore making cleaner air and reducing problems for allergy sufferers.
