

## MaPa 1629

- Large powerful industrial stainless steel vacuum cleaner
- 2 x 1200W by-pass motor
- Motor is double insulated with independent ventilation and two stage suction turbines
- Tipping tank for easy disposal of rubbish or liquid
- Shockproof plastic head
- Dust and liquid suction
- Anti-foam device
- Washable polyester filter
- Optional fixed wet or dry pick-up
- Suitable for most commercial and industrial cleaning applications

## MaPa 1640

- Large powerful industrial stainless steel vacuum cleaner
- 3 x 1200W by-pass motor
- Motor is double insulated with independent ventilation and two stage suction turbines
- Tipping tank for easy disposal of rubbish or liquid
- Shockproof plastic head
- Dust and liquid suction
- Anti-foam device
- Washable polyester filter
- Suitable for vacuuming heavier objects and wet pick-up
- Wide base and steel castors with rubber tyres make it suitable for outside use

## MaPa Shake

- Industrial polypropylene vacuum cleaner
- Dry only
- Manual and automatic filter shaker
- For use with electric tools
- Large filtering surface
- Suitable for pick-up of fine dust
- Intended for use in panel beating and carpentry shops or any other similar applications

## MaPa Sub

- Strong polyethylene tank
- Industrial wet vacuum cleaner
- 2 x 1200W by-pass motor
- Tipping tank for easy disposal of rubbish or liquid
- Motors are double insulated with independent ventilation and two stage suction turbines
- Liquid Suction
- Anti-foam device
- Crush proof suction hose
- Excellent for flood damage restoration
- The machine will suck and discharge water simultaneously allowing the operator to work without stopping

## MaPa Kong

- Industrial extraction machine
- 1 x 1200W by-pass motor
- Liquid suction
- Anti-foam device
- Crush proof suction hose
- Internal detergent tank
- This machine may be used as a vacuum cleaner, by adding the polyester filter and optional vacuum accessories
- Washable polyester filter
- Multipurpose machine, suitable for light cleaning of carpets, upholstery and hard floor surfaces

## MaPa Genius

- Industrial extraction machine
- 2 x 1200W by-pass motor
- Liquid suction
- Anti-foam device
- Crush proof suction hose
- Internal detergent tank
- This machine may be used as a vacuum cleaner, by adding the polyester filter and optional vacuum accessories
- External detergent tank allow for easy filling

- ABS polypropylene vacuum cleaner
- Functional design
- Multi-level filtering system
- Dust kit: lance, brush, nozzle, 2 rigid extensions
- The optional power head dramatically speeds up and improves cleaning
- Suitable for daily maintenance of carpeted areas

*Optional Accessories Available*

## MaPa 202

- Professional polypropylene vacuum cleaner
- Robust 1300W insulated thru flow single stage dry motor
- Shockproof plastic tank and head
- Washable 24 micron polyester filter
- Small, quiet and powerful
- Suitable for dry applications in the cleaning of hard floors, carpets and upholstery

## Eco Vac

- Professional polypropylene vacuum cleaner
- 1000w insulated thru flow double stage motor
- Thermal overload protection for motor
- Shockproof plastic tank and head
- Washable 24 micron polyester filter
- 0,3 micron hepa filter
- Paper bag filter
- Silent running
- Ideal for offices, hospitals, retirement villages and homes, where noise and dust suppression is a necessity

## MaPa 515

- Professional polypropylene vacuum cleaner
- Robust 1200W single stage by-pass wet and dry motor
- Shockproof tank and dry suction
- Washable 24 micron polyester filter
- Quiet and suitable for smooth floor surfaces

## MaPa 415

- Professional polypropylene vacuum cleaner
- Robust 1500 W single stage by-pass wet and dry motor
- Shockproof tank and head
- Wet and dry suction
- Washable 24 micron polyester filter
- Easily moves over rough ground, very stable due to wide base
- Suitable for all types of commercial and industrial cleaning

## MaPa 429GA

- Professional polypropylene vacuum cleaner
- Robust 2 x 1200W single stage by-pass wet and dry motor
- Shockproof tank and head
- Wet and dry suction
- Washable 24 micron polyester filter
- Easily moves over rough ground, very stable due to wide base
- Suitable for vacuuming of cars

## MaPa 429M

- Professional polypropylene vacuum cleaner
- Robust 2 x 1200W single stage by-pass wet and dry motor
- Shockproof tank and head
- Wet and dry suction
- Washable 24 micron polyester filter
- Anti-foam device
- Suitable for most types of commercial and industrial cleaning

## MaPa 440M

- Professional polypropylene vacuum cleaner
- Robust 2 x 1200W single stage by-pass wet and dry motor
- Shockproof tank and head
- Wet and dry suction
- Washable 24 micron polyester filter
- Shockproof plastic heads
- Anti-foam device
- Suitable for most types of commercial and industrial cleaning

## MaPa 1215 & 1515

MaPa 1215

MaPa 1515

- Small powerful and robust industrial stainless steel vacuum cleaner
- 1 x 1200W by-pass motor
- Motor is double insulated with independent ventilation and two stage suction turbines
- Stainless steel tank
- Shockproof plastic head
- Dust and liquid suction
- Anti-foam device
- Durable and washable polyester filter
